

SUMMER SUNCATCHER

Capture the summer sunshine! In this fun and creative project, you'll create a beautiful suncatcher using flowers from your neighborhood while exploring the plants that grow in your city. Hang your suncatcher in a bright window and let the sunlight shine through, bringing a joyful burst of color into your home.

MATERIALS

Printed sun template – Flower petals – Yellow construction paper – Clear contact paper

STEPS:

1. Print out the sun template.
2. Cut out the template including the center circle.
3. Trace template onto material of choice. We used yellow construction paper.
4. Decorate the sun.
5. Cut out sun.
6. Cut out a circle of contact paper that fits around the sun's inner circle. Take your piece of contact paper and press it onto your sun and set aside.
7. Gather flowers.
8. Place flowers on sticky side of contact paper.
9. Hang in a sunny window and enjoy!
